

Kepala Pet Resort

& Canine Country Club

Kepala Pet Resort is an ideal home away from home for your pets. Situated approximately 15 minutes from the airport makes it a convenient location.

Dog Boarding

We offer 2 types of accommodation to best suit your pet's needs, our Standard Kennels, & Luxury Suites

When your pet arrives he or she will settle in very quickly in our spacious, modern accommodation. All of our kennels/suites are indoors, undercover and cleaned daily. All dogs are housed & exercised individually, however 2 pets from the same family can share a kennel/suite. There is always something to see and do, most dogs enjoy the company of the staff & doggies in their neighbouring kennels.

Dogs in our [standard accommodation](#) are given 2 exercises per day in our large exercise yards. During your pets stay he or she will be fed 1 main meal consisting of high quality premium dry foods or high quality loaf style food. All pets are supplied with a trampoline bed & blanket. One piece of bedding (no bean bags) and/or one toy can be bought along from home. However, belongings should be clearly labelled with your pets name to help ensure they are returned at the end of your pets stay. Please note bowls are not required.

For the more pampered pooches we have the [luxury suites](#). This is Kepala's more home style accommodation. These rooms come complete with flat screen televisions, natural lighting, heating and cooling, they are available to most breeds of dogs. Dogs in these suites enjoy three exercises per day. All pets are supplied with a framed trampoline type bed & mattress. One piece of bedding (no bean bags) and/or one toy can be brought along from home. However, should be clearly labelled with your pets name to help ensure they are returned at the end of your pets stay. Please note bowls are not required. These suites are guaranteed to spoil even the most pampered pooch.

Additional exercise such as [playtimes](#) are available weather permitting (additional charges apply).

We require all our doggie guests to have a C5 vaccine which covers Distemper, Hepatitis, Parvovirus, Bordetella & Canine Cough. The vaccination certificate must be provided on arrival & then every 12 months when it is updated (feel free to email this to us prior to boarding). Dogs that receive the 3 year vaccination must still have the yearly canine cough vaccination. We recommend all dogs are protected against fleas and are regularly wormed.

Medications and health:

If your dog is on any medication whilst boarding we are happy to administer them at \$3.00 per administration. Please bring medication in the original labelled bottles from the Vet and give to the office staff upon check in. It is recommended that more medication is brought than required in case you are held up and longer boarding is required. You will need to fill in a form regarding medication directions upon arrival.

Please note puppy's need to be a minimum of 6 months with all puppy vaccinations done, we also do not except first time boarders over the age of 12 years without an in depth discussion on their health and needs beforehand. Boarding may be declined due to health issues.

Cat Boarding

We offer 2 different sized cabins for our feline guests.

Garden Cabins: These cabins are spacious and suitable for up to two cats from the same family. Cabins are split level with a cat door allowing access to an undercover outside area which overlooks lush green gardens. These cabins are perfect for those cats that enjoy the outdoors or just appreciate the extra space.

Luxury Suites: A large, spacious cabin with a variety of climbing equipment, bird watching windows and virtual fish on our flat screen TV's makes it perfect for the more adventurous felines.

When your pet arrives they will settle in quickly to our spacious modern accommodation. Our cattery is fully indoors and is heated in winter and cooled in summer. For your pets comfort soothing music is provided to all areas of the cattery.

All cats are housed individually; however two cats from the same family can share a cabin if compatible and with the owner's consent. All cabins include litter trays, a comfy bed, bowls and blanket. All our feline guests are exercised daily in the secure surrounds of the cattery while their cabin is being cleaned.

Cats can laze about and enjoy the soothing music, lay in the sunshine with the fresh air or just sleep the day away. We use high quality premium dry food and wet food which is provided for grazing throughout the day. We understand that some cats require special diets or just prefer their own food so we encourage you to bring it along if required, just ensure it is correctly labelled and there is enough for your cats stay.

Our friendly and qualified staff understand that the transition from home to a cattery environment can be a little unsettling for some cats. Therefore we are always on hand to provide extra cuddles and more attention to those who require it.

We require all cats to have an up to date F3 vaccination. The vaccination certificate is required on the arrival day (or can be emailed through prior to boarding) & then every 12 months when it is updated. We recommend all cats are protected against fleas and are regularly wormed.
